

AIRLESS LAUNCHING SYSTEM

U.S. PATENT #6,692,335 B2

INSTRUCTIONS FOR USE

Step 1- Hold the end of the tube firmly in one hand and extend you arm straight up above your head to the 12 o'clock position.

Step 2 - Bring your fore arm back to the 3 o'clock position. In one continuous motion quickly return your arm to the 12 o'clock position while flicking your wrist. Repeat until the entire product is out of the tube. If nothing happens flick harder.

Step 3 – Turn the tube over, hold the empty end and repeat step 2 until the tube is empty.

WARNING - Do not point, flick or fling towards anyone when using.
